

Tommy Bank

Profile

As software engineer, I enjoy going to school. I also like collaborating with other students and am good at that. I try to learn new skills and can learn them pretty fast. I am Tommy Bank and I will provide both an enjoyable work environment and quality work.

Education

Software Engineering

Hogeschool van Amsterdam Sept 2019 - July 2024

- In this study I am learning how to write code, make databases, build applications and analyse business processes.
I also look at how companies operate and how IT-Solutions within can help them.
- Ive created multiple web applications during this study and learned how to work with agile development.

HAVO - Economie en Maatschappij

St.Michael College Sept 2014 - July 2019

- With ICT as elective

Work Experience

Software Developer Intern

AH Tech Labs Sept 2022 - Feb 2023

- At AH tech labs I learned how to develop flutter applications while focussing on frontend. The internship also developed my agile skills and taught me what its like to work in a large company environment.

Hobby's

In my spare time I enjoy watching movies and shows, playing games and drawing maps. I also enjoy hanging out with friends and playing D&D or boardgames.
